

Dear Mr. Lou

I thought your show was amazing and funny at the same time. I really liked your different voices for each character; it made me and all my friends laugh. I also liked your "all around the world" song and the dance moves with it. I also liked that you walked around the room so everyone could see you and at the same time you were acting out the story. Another thing that I liked was that you participated everyone and it wasn't all about you. I also learned that stories can be expressed in different ways and be learning about them at the same time. It seems to me you did a lot of things at the same time. I just wanted to let you know that I enjoyed the show.
